We have engaged policymakers from these countries:

And also promoted the S&P Global FinLit Survey in the media:

*Forbes* Blog | 4/1/2016

### Happy Financial Literacy Month!

“The **S&P Global Financial Literacy Survey** released last fall showed that only 57 percent of adult Americans know basic financial literacy concepts such as interest compounding, inflation, and risk diversification.”

*Forbes* Blog | 12/16/2016

### Understanding the Implications of An Interest Rate Hike

“Yet the reality is that many Americans know little about interest rates, and much less about the implications of a rate hike for their finances! This was one key finding from the recently released **S&P Global FinLit Survey**...”
