## Monthly Spending Plan Worksheet

To save money for a goal, we often need to reduce our expenses, increase our financial resources, or both. You can practice evaluating ways to save money by completing the monthly spending plan below.

Start by calculating the money you have available to you throughout the year.

Since part-time or seasonal jobs may provide you with income for the entire year, you will add up your total yearly income and then divide by 12 to determine your monthly income.
Note: not all of the financial categories listed below may be applicable to you.

| Yearly Income | Current | Goal | Difference |
| :---: | :---: | :---: | :---: |
| My Money |  |  |  |
| Allowance |  |  |  |
| Money earned from <br> doing chores |  |  |  |
| Money earned from <br> babysitting |  |  |  |
| Money earned from <br> mowing lawns |  |  |  |
| Money received as gifts |  |  |  |
