There's no better time to take action to ensure high school students receive financial education. It has been proven that rigorous FinEd programs in high school can improve financial decision making and behavior. Policy makers from states such as Fla., Iowa, Ky., Mass., N.J., R.I., S.C., Texas and Wis. are taking notice and moving toward legislation to improve financial literacy rates among high school students. How can we work together to make this a reality across the entire nation?
